

Shivam

Faridabad | (+91)7827741538 | shivamsingh704261@gmail.com

OBJECTIVE

“MCA student skilled in Python, .NET, and SQL, with hands-on experience in developing scalable, user-friendly web applications, along with knowledge of Machine Learning, Deep Learning, and Large Language Models (LLMs) to solve real-world problems through efficient backend and frontend solutions.”

EDUCATION

Chandigarh University

Master of Computer Application (2023-2025)

Mohali, Punjab

Maharishi Dayanand University

Bachelor of Computer Application (2019-2022)

Rohtak, Haryana

EXPERIENCE

Edatapings Pvt. Ltd.

Software Developer | July 2025 – Present

Noida, Uttar Pradesh

- Develop and maintain CRM applications using C#, .NET, SQL, and JavaScript.
- Design and optimize database queries, stored procedures, and data workflows in SQL Server.
- Build and enhance backend functionalities using .NET for scalable and efficient performance.
- Collaborate with team members to gather requirements and deliver customized CRM solutions.

PROJECTS

AI Video Metadata Generator

FastAPI, SQL, OpenAI API

- Developed a web application that allows users to upload videos and automatically generate titles, descriptions, and hashtags.
- Integrated OpenAI Whisper API for accurate speech-to-text transcription from uploaded videos.
- Utilized OpenAI API to generate relevant and optimized metadata (title, description, hashtags) based on video content.
- Built backend services using FastAPI and managed database operations with PostgreSQL..

Security Booking Platform

Django, SQL, React

- Developed a platform that enables users to book security guards and bouncers on-demand, similar to ride-booking applications like Rapido.
- Built backend services using Django and managed database operations with PostgreSQL.
- Designed and implemented responsive user interfaces using React.
- Designed core features such as booking flow, service allocation, and status tracking.

SKILLS & CERTIFICATIONS

Technical Skills: Python, MSSQL, PostgreSQL, Tableau, AWS EC2, C#, Machine Learning, Deep Learning, LLM, Javascript, React, Django, Github.

Certifications: Build With India Hackathon, HackerRank Certified Software Engineer.
